

Pro-tek is an up & coming brand in the tube market. This brand is entirely manufactured & tested in the USA by D & C Electronics. Although new to Asia, this brand has already found many fans in the USA including the US Military, Boeing, TCT, Trinity, TigerEye BC & many TV/Radio stations. Their current list of models are:

3CX10000A7
3CX15000A7
3CX1500A7
3CX3000A7
4CX3500A
TH382
TH347
TH582
YU148

Pro-tek offers the same tube specifications & warranty as the leading tube brands. Their competitive pricing, prompt delivery and quality products has converted many users.

D & C Electronics know that the design, manufacturing and testing of tubes are very important. Each tube is extensively tested prior to shipment from the factory to ensure optimum levels of on-air performance will be maintained & therefore, Pro-tek tubes have proven to be exceptionally reliable even in harsh environments.

The company's commitment to excellence continues all the way through shipping and distribution stages. Their stringent packaging standard ensures ample protection of the product and the firm's ability to respond quickly to orders assures the highest degree of customer satisfaction. D & C is able to handle large volumes and yet small enough to care about every order.
